Biquine Cavadao Discografia Mp3.epub

Thank you for your Answer! A: sed -n's/Uncounted\{6\}/[^\r]/p' yourfile.txt Q: How do I check this jQuery expression? I have this jQuery expression: jQuery('#uploads').on('click', function() { if (jQuery(this).hasClass('selected')) { jQuery(this).removeClass('selected'); } else { jQuery(this).addClass('selected'); } }); I want to check with it if the clicked element is in the #uploads div. How do I do this? Thanks in advance. A: Try this jQuery('#uploads').on('click', function(e) { if (jQuery(this).hasClass('selected')) { e.stopPropagation(); } else { jQuery(this).addClass('selected'); } }); Use event.stopPropagation(), this will prevent to execute event handler which called this. Reference Q: How to properly write this SQL query? I want to fetch list of following information: ID Status Count (How many times people viewed this profile) Here is what i am trying to do. SELECT `id`, `status`, COUNT(id) as Count FROM `profile` GROUP BY status HAVING Count > 1 I need this Count to be greater than 1 to avoid duplicates as i am using mysql. If I use Count > 1, it gets duplicates and it is not ok. How to do this? A: i dont get what you want to say, but if you want to count how many times someone viewed the profile you should use sub-query like this SELECT `id`, `status`, (SELECT COUNT(id) FROM `profile` WHERE `status` = `profile`.`status`) as Count FROM `3da54e8ca3`
