Word Finder [Win/Mac]

KEYMACRO is a live audio keyboard recorder software. It can record musical keyboard instruments and also export the recorded audio file to different audio formats such as MP3, WMA, OGG, WAV, AAC, AIFF, M4A, RA... Word Match is a unique and extremely handy utility that lets you quickly and easily find out if a word or phrase is contained in a text. Also, it can display the word in its full form, as well as, or just the first letter, and even the first three letters! To find out if there is a match, you simply need to enter the text in the search box and choose the option of searching for a specific word. If the word or phrase is present, you will see it on the right side of the search box. The keyboard cursor will be automatically positioned after the word you are looking for and you will be able to scroll the text in the window. Word Match is really intuitive and as easy to use as it can be. KEYMACRO Description: KEYMACRO is a live audio keyboard recorder software.
