Â I am not able to download the patch required for Photoshop CS5. I have read on the web that the patch provided by adobe doesnt work on 32 bit or 64 bit systems. I have 32 bit system. My question is... Help!!! Took forever to download the patch, but finally did it. Installed like a breeze. (I have to say this......the patch DOES NOT work for Photoshop CS5. The printer seemed to have been renamed from "Primary 1" to "Secondary 1" or something. I hope this will be the only one. I have only played around with the app......but don't understand it, yet. I think my default directory is.....for info....I'm using Windows XP. Is there a way to see if the patch has done any good, or is there somewhere else that would be best to post the results? Thanks in advance, and I hope this is the only post. good luck to all in the forums! I have tried everything I can think of to get Photoshop CS6, Photoshop CC 2014, or Photoshop CS5, or Photoshop to work on a 64 bit system. Nothing seems to work. I have run on.exe installer of Photoshop and read many, many, many tutorials, but nothing seems to work. What did I do wrong?
