Make humans laugh. Make them cry. Show them your horrible programming ability. Change their mood. Since humans have been perfect, because they don't have any basic needs. Your mission is to spread your disgusting viruses that every human has. Do you wish to become more powerful? Well, you need to infect humans first. You can change the weather or the human mood. Make crazy sounds. Humans are very simple creatures. They need to get offended by their own boredom. They need to do something that will make their blood boil. Humans are a very fragile creature. They need distraction, pranks and noise. If their blood does not boil, it is a great idea to repeat any noise. You can be the most irritating noise. Sometimes it will work well. You can play sick! Unleash your depressing viruses on humans. Make them insane. This is your mission, make humans laugh. It is as easy as clicking the mouse. How To Play The Game: Left-Mouse Click - Take item Right-Mouse Click - Drop item Press fire button to light the item on fire Enter your damaging viruses Explore the map in search of villagers or other NPCs Aim and fly to change direction. Use left-mouse to aim Aim and fly to change direction Use your damaging viruses to infect NPC's Do not get infected by NPC's Break the tiles to find your way Use items wisely Use many viruses on human Make his face turn red Help users of NGUI to build a better game. "NEXT GAME PLEASE" Possible bug: If you use the diamond power up that has a chance to send you to the far away island, you may be dropped off and then you may "not exist". If you dont pay any attention to the message and keep on flying, you can be dropped off and the game will continue and you will have a 100% success in the mission. A fast-paced, neon-soaked shooter based on the cult classic side scrolling experience of Wrecking Crew. The game will be released in the summer of 2018, and will feature head-banging, shoulder-shaking gameplay reminiscent of the great 80's side scrolling shooter. Wrecking Crew is set in 1986, a time when the power was concentrated in the hands of a few. In California, a series of plane crashes have left the state littered with the rusting remains of the many

**Review - Just a game about talking to your neighbors? Gone Home is a mystery set in North America in 1983 (almost a full twenty years before the 16-bit generation would take over the scene, making it quite a crazy time to experience events like this one). Forced to flee her home, as US-Troop invasions force the area to be reclaimed, Mary Morgan (Mary from The Cooking Mama series) and her cat take to the woods with home and cat, Sara and Ben. During the night, they are discovered and taken captive by rural Kickstarters, some of whom may not be too nice. In order to be let go, you must win them over through chatting! Now that I've set up the background, let's get down to the review. Story - 6.5/10 Those who have played other games like this will be familiar with Gone Home's lack of the truth. There will be plenty of details that the player needs to be concerned with, so long that the truth is not spoken. Some of the conversations will be funny and there'll be some horror. As we can see, this game is about suspicion. So, it's just not really a puzzle game (thank the gods). This is more about eavesdropping and having a conversation with someone you don't know. There's a fair amount of mystery about why Mary is needed so badly and how she's going to survive. However, a fair amount of hints are given, so those who know the answer can find the answers. It's more like a heist movie than a mystery. Though, the important point is not really to know the answers, but to know just a little bit more about how the people are connected together in the little town. I probably should've mentioned this earlier, but this game is only worth playing if you are into "theories" about the world. I found the nature of it to be quite fun, so things were pretty much talking about it all the time. Nevertheless, there's not really a big story to be told. Graphics & Sound - 9.5/10 One of the first pieces of artwork is presented, and it's good. Kind of scary to play around with "strangers", but it's quite good to read their reactions as you can figure out**

In the beginning, there was no Ayaria. Then, there was the World of Desolate. Also, within the World of Desolate, there was one maiden who appeared to be incomplete. Who was the one who proceeded the girl to the World of Desolate? It was a mysterious maid in a dark blue dress. She was known as Ayaria, and said that her presence was one of inevitability. This is the story that occurs in the Touhou Ibunseki Ibun no Mori: Ayaria Dawn. A charming story about fate in Ibun no Mori. In the beginning, there was no Ayaria. A charming story about fate in Ibun no Mori. - "Our movements are so sudden that you can't even make out our intentions. We don't remember at what point we received your orders. All we can do is follow our instincts." In this world, when someone comes to us and asks us to fulfill a mission, we probably don't even have to think twice. It's just a straight task that's assigned to us. We don't even have to ask who, or why, or from where. But then, they had to ask us if we would work with them. If we would take their orders. That request was so strange, so unexpected. "Yeah, you're right. It's just as you said." Since we had no real reason to refuse them, we accepted the order. "Thank you very much. We'll be going then." There's no way we would've been happy if we went to some foreign land. But then, we got into our car. We were told to find a woman who was black, and a woman who was red, and then meet up with someone. "I wonder who it

[Comparative study of clinical efficiency of endoscopic sphincterotomy and papillary balloon dilatation of the sphincter of Oddi]. Endoscopic sphincterotomy and papillary balloon dilatation was undertaken in 37 patients with common bile duct stones. Analysis of the efficacy of treatment showed that endoscopic sphincterotomy and papillary balloon dilatation have 92.5 and 76.0% of success of endoscopic treatment of the bile duct stone respectively. A comparison of results showed that endoscopic sphincterotomy and papillary balloon dilatation had 38.3 and 50.0% of total number of papillary balloon dilatations failure respectively. UEFA has opened an internal disciplinary case against Sunday league football's Irish governing body for using illegal marketing techniques to encourage fans to pay for club membership and thereby remain regular supporters. The FFAI has in recent years successfully appealed against a number of Fifa-imposed fines for travelling fans hiring the third-party hospitality box at its home games by offering them a cheaper deal on season tickets. UEFA's Sport and Youth Board has also opened proceedings - with a statement from the disciplinary panel - but given the length of time since the period of investigation began, it is not yet clear what retrospective action it will take. The Irish sport association previously successfully fought cases against both UEFA and Fifa in a bid to reclaim football revenues lost on stadium investments, travelling fans and the third
