Topwater fishing is an enchanting activity that combines the pleasure of fishing with thrill of the hunt. With deep and still waters, topwater fishing is considered to be one of the most exciting ways to bring in fish. But each challenge of fishing with an elusive critter requires accurate casting and techniques different from those of freshwater fishing! Jak's Epic Fishing will provide you with all the necessary knowledge and equipment to enjoy your epic topwater adventure! The sport of fishing has undergone a revolution as many fish are seeing their habitats changed by man. Jak is embarking on his quest to become a great topwater fisherman by reading up on his fishing lessons, catching fish

Fishing Planet: Topwater is all about the thrill of fishing in the nighttime. With that in mind, we decided to put the spotlight on topwater fishing. On the surface, this is not a different kind of fishing, but in reality it is a whole different story. The reason is simple - in day light the fish see much better, are less aggressive and are easier to spot. Also, there are fewer fish in the water at night, so the chances of being caught are less. But still, it is possible to catch fish at night if you know what you are doing. Fishing Planet: Topwater Midnight Pack offers you a new world of nighttime fishing adventures - you will be able to explore as much as you want in the game. We want our players to be able to fully enjoy the experience of night fishing. In addition, we are giving them lots of new challenges. As if fishing in the dark was not scary enough, you will also have to deal with many other night-time mysteries. Keep in mind that you are on an island, remote from other people and on the verge of a mysterious creature. And the best part is that you are not the only one in this

---

situation. Keep in mind that not all areas of the island are the same. Some parts are quiet, sleepy and peaceful, while the others are dark and dangerous. You must be prepared for a whole variety of situations and environments. Unfortunately, you are stranded on the island and have to deal with everything yourself. You have only one way out, but are you capable of reaching it? And what will you find on the other side of the island? Topwater fishing is simple and straightforward, just like fishing anywhere in the game. You can choose between a lure and a rod. A lure is a weighted rod that attaches to the hook on the lure. Depending on the lure you are using, you have a variety of options, such as bait, frogs, shad, worm, frog-popper, craw, popper, spinnerbait, crankbait, crankbait. The best approach is to use the heaviest lure possible in order to bring down as many fish as possible. The second option is a rod that you use for casting. At nighttime you can cast a wide range of distances. The longer the cast, the farther you will be able to go, so you can lure many different fish. Have you

ever heard of night fishing before? Can you think of any situation in the game in
