A: Try to download and install numpy. From command line, type: `sudo apt-get install python-numpy` It should solve your problem. Also try to install pip and virtualenv. From command line, type: `sudo apt-get install python-pip` Then type: `pip install virtualenv` then type: `source /opt/virtualenv/bin/activate` If you are in another directory, you need to change it to the directory where you downloaded and installed virtualenv. (I think it's `/home/yusuf/Downloads/.`) who went on to commit multiple murders and on the run from the FBI and the Mafia for decades. He's an infamous, embittered and violent criminal. As part of a deal that saw some of the most serious charges dismissed, he agreed to appear as a witness in the Loughner trial. Garrido said his goal with this book is to provide an accurate depiction of the complex person he came to see as his arch-enemy and to offer a meaningful and truthful portrayal of his relationship with Loughner. He aims to be fairly objective in this effort. "I wanted to give a perspective," he explained. "I didn't want people to be able to say, 'So and so is unreliable.'" "I didn't want it to be a one-sided book. I wanted people to understand it was not just an attack on the defendant. There are many aspects to this story." Garrido was invited by the judge to submit his book for a summary of its contents, which she issued last year. He said she "found it a balanced book, including the man's side of the story." His book may have been an appealing vehicle for his testimony in the trial, but it isn't his only work of fiction. He is the author of six short story collections and numerous magazine articles. He is also the director of an award-winning, Emmy-nominated TV show. He is an unusual man, not just because he is one of the most wanted and dangerous fugitives in the world. He is so rich that he can afford to keep a warehouse in Hawaii, a favorite beach on the island of Oahu and an office in Los Angeles as a residence. Like many who spend their
