Then, after few days i can't login to my account. When i checked my game, I found that my account has been banned. Also, my account is not able to connect with some of the other games because of the error: I gave its app id, it went to password verification screen, then i was not able to go further. I tried fixing the issue using the "reset" option and also "delete old game data". But nothing worked. Could you please help me to sort out this issue? A: There is a request for the support of WUABi for Xbox One and PlayStation 4. Please unblock the accounts to revert back to its previous state. Q: PHP - Join Query Using Select Clause I have three tables (lots and lots of rows) : Table: people id | firstname | surname | sex | height | age | etc Table: jobs id | name | date Table: lots personId (fk people) | jobId (fk jobs) Basically I'm trying to fetch all columns in table people. If a person is in lots of jobs they don't need to be repeated. So I did this: SELECT p.firstname, p.surname, p.sex, p.height, p.age, p.etc FROM jobs AS j LEFT JOIN lots AS l ON j.id = l.jobId LEFT JOIN people AS p ON l.personId = p.id WHERE j.name ='mike' This seems to work fine but I'm wondering if it is efficient and best practice. A: Add each of the three tables to the query in their own where clause: SELECT p.firstname, p.surname, p.sex, p.height, p.age, p.etc FROM jobs AS j WHERE j.name ='mike' --j.name ='mike' 6d1f23a050
